

markai

Your agency, in context.

A guide for making the brand feel like one system.

01

Product

Use the tokens in UI, flows and modules. White is the surface; orange signals a decision or action.

02

Marketing

Use one concrete idea per asset. Explain work Mark AI prepares, not AI “magic.”

03

Team

Read `brand-context.md` before creating a new surface. It is the source of truth.

This PDF is a quick reference. Tokens, rules and decisions live in `brand-context.md`.

Context should not live only in the founder's head.

PURPOSE

Give agency founders a clear environment for turning scattered work into informed decisions.

WHY

Founders should not carry the company's context alone.

HOW

Connect documents, departments and agents around one shared truth.

PROMISE

Know what needs your decision, and why.

WHAT

Cockpit and modules for commercial, delivery, finance, legal, campaigns and capacity.

Internal mantra: **Context. Decide. Move.**

For the person still holding the whole company together.

THE FOUNDER

Sees the whole company

Clients, cash, risks, contracts, delivery and priorities. Needs judgment, not another tab.

THE FUNCTIONAL OWNER

Executes deeply

Enters a module with client context ready. Works, leaves evidence and returns state to the cockpit.

Mark AI is not a chat, CRM, task board or standalone campaign manager.

It is the connected operating environment for an agency.

Clear enough to decide. Capable enough to act.

DIRECT

but not abrupt

"Three decisions need your attention."

EXPERT

but not condescending

"Here is the evidence behind the recommendation."

WARM

but not chatty

"You can review the draft before it is sent."

EXACT

but not bureaucratic

"Invoice overdue by 12 days."

Avoid: "revolutionary," "effortless," "AI magic," and "fully autonomous." Always name the source, decision and human control.

A mark built from parts that work together.

SYMBOL

Four rounded modules form an abstract M.

SPACE

Leave at least one module width around the lockup.

SIZE

Lockup: 88 px digital. Symbol: 24 px digital.

Master files: `assets/logo/svg/`.

The symbol works because it remains one unit.

NO

Stretch or compress

NO

Rotate the mark

NO

Recolor modules

NO

Add shadows or effects

NO

Separate the four pieces

NO

Use orange for body text

NO

Place on busy imagery

NO

Rebuild it as ordinary text

Use the right variant: color on light, reverse on ink, and monochrome only when production requires it.

Orange to signal. White to think.

Accessibility: Ink on white = AAA. White on Mark Orange = AA. Do not use orange for body text on white.

Structure for fast reading.
Space for better thinking.

Space Grotesk

Headlines, metrics and key labels. Approved weights: 500, 600 and 700.

Avenir Next

Reading, interfaces and descriptions. Approved weights: 400, 500 and 600.

Display	H1	H2	H3	Body
----------------	-----------	-----------	-----------	------

Scale 1.25 · 16 px body · headings at -0.03 em tracking · body line-height 1.55.

UI is not decoration. It is how you see what matters.

DECISION

Renew Delta proposal
Approval is due Friday. View evidence →

CLIENT

Awasqa Boni
Milestone: brandbook review. Blocker: pending feedback.

FINANCE

S/ 4,200 receivable
Invoice overdue by 12 days. Prepare follow-up
→

Purposeful cards, clear labels and one primary action. Orange marks priority, approval or next step: it does not fill the screen.

One brand. Six areas. The same operating reality.

COMMERCIAL

Leads, proposals and close.

DELIVERY

Milestones, meetings and handoffs.

FINANCE

Cash, collections and obligations.

LEGAL

Contracts, IP and review.

CAMPAIGNS

Brief, production, media and results.

CAPACITY

Owners and workload.

Every department inherits the master identity. No department gets its own logo or palette.

The essentials, on one page.

COLOR

Primary: #F35B1C
Ink: #1D1A17
Surface: #FFFFFF

TYPE

Headings: Space Grotesk
Body: Avenir Next
Base: 16 px

VOICE

Clear · warm · exact
"Your agency, in context."

YES

Show evidence, name the next decision, use white surfaces and orange intentionally.

NO

Talk about magic, use AI as a substitute for judgment, create department sub-brands or flood UI with orange.
